SUMMARY

Front-End Developer with hands-on experience building **scalable** and **responsive web applications** using **React, Next.js, and TypeScript**. Detail-oriented developer focused on writing **clean, maintainable, and reusable code** with an emphasis on **reusable components**, **scalable frontend architecture**, and **code quality**. Strong **problem solver** who enjoys collaborating with development teams, solving technical challenges, and continuously improving engineering practices to deliver **reliable software**.

PROFESSIONAL EXPERIENCE

Front-End Developer

Sepehregan Academy 02/2026 – 06/2026

- Developed a modern **real estate platform** for property listing, rental, and booking using **Next.js, TypeScript, and Tailwind CSS**.
- Implemented the majority of the application's core pages, including **property listing, property details, booking workflow, dashboard, and property location**, integrating **Neshan Maps** for interactive location display.
- Designed a scalable frontend structure by building reusable components, organizing a dedicated TypeScript types layer, and improving project maintainability through a well-structured codebase.
- Developed a centralized service architecture for form management and API communication, creating **8+ form service modules** and **4 API service modules** to standardize data handling across the application.
- Built a responsive **role-based dashboard** supporting **Customer, Property Owner, and Administrator** workflows, including dark mode and shared UI components.
- Collaborated with the development team to solve technical challenges, improve code quality, and deliver a responsive, maintainable, and scalable application.

Front-End Developer

Apanco 01/2024 – 05/2025

- Developed a modern e-learning platform using **React, JavaScript, and Tailwind CSS**.
- Built and maintained the majority of the application's user interface, including **course listing, course details, instructor pages, and most of the student dashboard**.
- Customized and extended the **Vuexy React Admin Dashboard**, contributing to the implementation of administrative features.
- Integrated REST APIs, implemented responsive layouts, and ensured a consistent user experience across different devices.
- Resolved 50+ frontend bugs through rigorous testing and debugging processes, enhancing overall user experience and maintaining existing features, leading to a 25% increase in user satisfaction ratings within three months.
- Participated in code integration and project maintenance by merging completed features and supporting the overall development workflow.

SKILLS

• HTML • CSS • JavaScript • TypeScript • React
• Next.js • Tailwind CSS • Zod • Yup • Formik
• Axios • Fetch Api • Tanstak Query • Redux Toolkit
Tools : Github • Figma • Postman • Swagger

LANGUAGES

English: Upper-Intermediate (B2)

Persian: (native)

SOFT SKILLS

— Problem Solving | Attention to Detail | Team Collaboration | Adaptability | Initiative | Continuous Learning

EDUCATION

Computer Engineering 09/2023 – Present
Gonbad Kavous University Gonbad,Golestan Province,Iran

High School Diploma – Mathematics 09/2020 – 06/2023
15 Khordad High School Sari,Mazandaran Province,Iran

PROJECTS

Real Estate Platform

Property Rental, Booking & Management Platform

A real estate web application that enables users to list, rent, and reserve properties through dedicated role-based dashboards. The platform includes an property map, responsive design, dark mode, and a scalable frontend architecture built with reusable components and centralized service modules.

Key Features

- Property listing and detailed property pages
- Interactive property location using **Neshan Maps**
- Role-based dashboards for **Customer, Property Owner, and Administrator**
- Responsive design across desktop and mobile devices

Tech Stack

Next.js • TypeScript • Tailwind CSS • Fetch • Neshan Maps API

E-Learning Platform

Online Learning Management System

A responsive e-learning platform designed for online course management. The application provides dedicated dashboards for students and administrators, enabling users to browse courses, view instructors, manage educational content, and access learning resources through an intuitive interface.

Key Features

- Instructor profiles
- Student dashboard
- Admin dashboard
- Responsive design
- Customized Vuexy React Admin Dashboard

Tech Stack

React • JavaScript • Tailwind CSS • Vuexy React Admin Dashboard • Axios
